NOTICE TO HOMEOWNER

- We recommend that this product is installed by a qualified professional plumber.
- Please check this product immediately to ensure that it has not been damaged and is complete. Before installation, please make sure this product is the correct model and you have all the parts required for installation and use.
- Please flush the water system to ensure that no metal swarf, solder, and other impurities can enter the product.
- Turn off water supply before commencing work.
- Please read these instructions carefully and retain for future reference.

OPERATING SPECIFICATIONS

WATER TEMPERATURE

This product is to be used with water at a temperature range of 40°F - 120°F ONLY!

WATER PRESSURE

This product is to be used with a water pressure range of 15 PSI to 80 PSI ONLY
If water pressure is greater than 80 PSI install a pressure reducing valve (PRV)

This valve meets or exceeds ANSI A112.18.1 and ASSE 1016

This valve is certified by IAPMO

CUT OUT DIMENSIONS

Isenberg's wall mount two handle lavatory valves does not come with a mud guard. It is essential to review the cut-out dimensions shown on the left so that the proper hole sizes are cut-out in the finished tile.

Wall Cut Out Dimensions From **Center Point** of Valve:

WLM.1900

3 equal holes of 1.3" / 33 mm
Y = 102mm / 4.2"

ROUGH IN SPECIFICATION

Maximum = 3,15"

Minimum = 2,15"

The distance between back of the valve to the finished tile surface should be between 2.15" and 3.15" inches.

If valve is installed too deep into the wall, extensions are available.

CONNECTING THE SUPPLY & OUTPUT LINES

Fix Valve on wooden plank

Level Valve

Attach Hot/Cold Supply Lines

FLUSHING THE VALVE / REPLACING THE VOLUME CARTRIDGE

In order to clear dirt in the lines - you must flush the valve before the wall is closed and water is turned on for the first time.

1) Remove volume control cartridge by turning with a spanner

4) Turn on water supply and let water flow removing any dirt in the lines.

INSTALLING THE TRIM - TRIM PLATE SIZE AND SHAPE MAY VARY - ILLUSTRATION ONLY

Insert stem extension on hot and cold handle and secure using provided screws

Insert handle circular trims and output spout connector

Insert flange

Secure with a small amount of clear silicone on the back end of the flange

INSTALLING THE TRIM - TRIM PLATE SIZE AND SHAPE MAY VARY - ILLUSTRATION ONLY

Insert handle and long hex screw

Tighten long hex screw to secure handle

Insert handle rod and tighten

Insert spout

INSTALLING THE TRIM - TRIM PLATE SIZE AND SHAPE MAY VARY - ILLUSTRATION ONLY

Tighten hex screw to secure spout

This photo shows a completely installed trim
